

BUSINESS DECT SYSTEM

Jtech provides the optimum solution for real-time on-site communications. The BUSINESS DECT COMMUNICATION SYSTEM has been developed to provide real business advantage.

By keeping you constantly in touch, DECT gives you immediate access to essential information that helps make you more productive, more competitive and more responsive to your customers' demands.

Jtech Australia's DECT Systems are ready to ensure that you are fully empowered to make those vital decisions, even if you are rarely at your desk.

The BUSINESS DECT SYSTEM provides:

- * Freedom at work - make and receive calls from anywhere within your business*
- * More flexible and cost effective than using mobile telephones*
- * No missed calls - Increase Sales, Service and Productivity*
- * Be more responsible to your customers needs and demands*
- * Embraces ALL the features of your existing PABX System*
- * Ability to interface with Jtech's GENESIS PAGING SYSTEM to enable text messaging to the DECT handsets*
- * Return on investment within MONTHS!!!*
- * Free internal calls*
- * Optimum site coverage*
